9. Instant start.

Packaging Details:
2pcs/color gift box; 40sets/carton
Color box size: 200*53*175mm
Packaging size: 560*415*375mm

Warranty:
18 months

C02 SERIES

Professlonal automotive
LED headlights

C02-H7

PRODUCT MANUAL

Series type

H7 | H11 | 9005 | 9006 | 9012 | D2S

SPECIFICATION

Led Chip: CREE XHP50

Beam Angle: 280°

Max Light Output: 5000 lumen/pcs

Temperature: -40 ° C ~ + 85 ° C

Start output: 4000 lumen/pcs

Luminous Efficacy: >80%

Start output: 4000 lumen/pcs

Light color : 5000K/6500K

Power: 35W

Voltage: DC12V

Input(A): 2.9±0.1A

Luminous Efficacy: 280%

Startup: Instant start

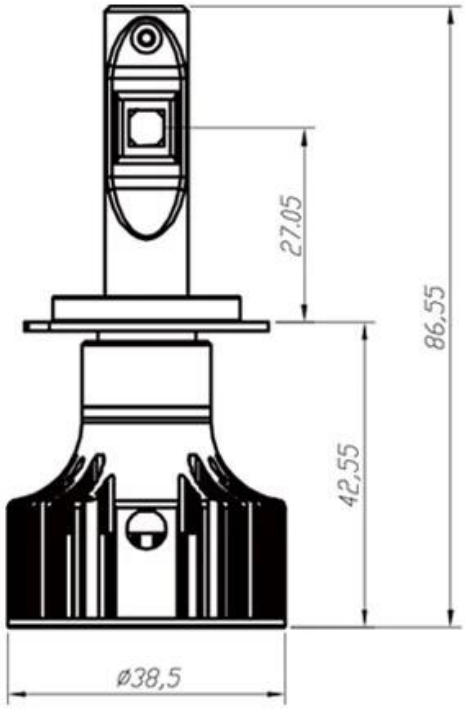
Installation: Plug and Play

Life Span: 30000hours

Waterproof: IP65

C02 SERIES LED HEADLAMP SIZE

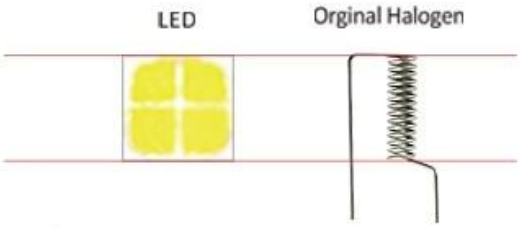
Small size with replaceable base,high rate of installation and fast replacement from one model to another model.



Light angle ≥140°

Two sides of the light emitting design
Wide range of light and field of vision.
Safe driving at night.

High power LED chip, proofread carefully, the lighting is same as the original halogen perfectly.



The light is on the ground uniformly

Design in full accordance with the halogen light center to achieve the perfect light shape.

CREE-XLamp XHP50 LEDs

SUPER BRIGHTNESS CHIPS

Original America Cree LED chips, ultrabrightness, strong light-focusing
Lifetime can be 60000-10000 hours

Plane high-effect and high-power CREE chip,wide range of light angle(≥140°),high lumens.

Wide range of light and field of vision

High lumen 8000lm per pair

Spot light perfect shape

High speed doule-ball bearing 30000 revolution per minute

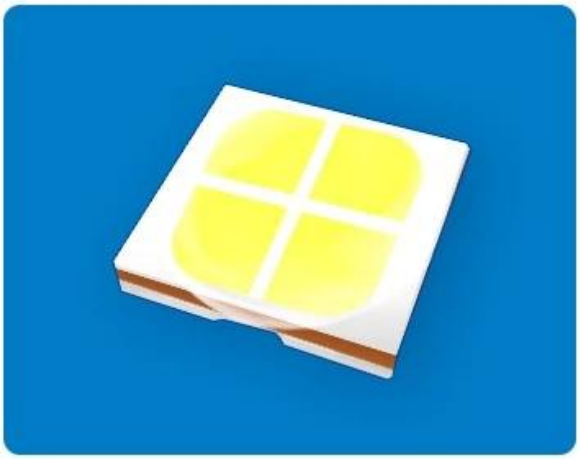
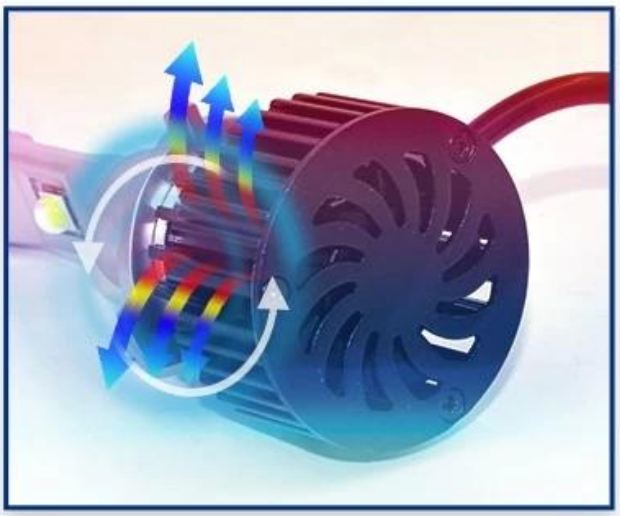
OUR ADVANTAGES

Product Value



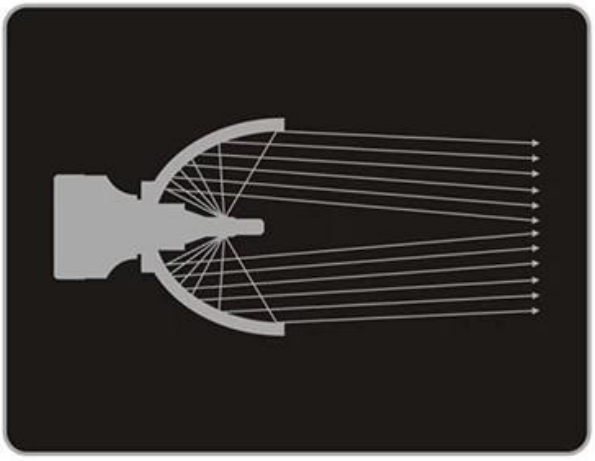
Super Brightness

High power CREE's LED chip,8000 lumen per pair.



Intelligent Heat Radiator

Intelligent heat-dissipation system. Safe guard of the led bulb .



Perfect light shape

Same LCL as the original car light.

EMC function

Electro Magnetic Compatibility design according to GB-18655 standards

Instant start

Instant start, ensure safety when driving

Three choices of color temperature.

3000K 5000K 6000K
